## VOLUME 51 · SUBJECT INDEX

- Achilles tendinitis, HLA-B27 associated, longstanding: *correspondence*, 1265
- Acute rheumatic fever, abdominal pain with free peritoneal fluid detected by ultrasonography: *case report*, 394
- Adjuvant arthritis, effect of iron complexes, rats, 516
- Adrenoceptor profile of synovial blood vessels, knee joints, rabbits, altered by acute joint inflammation, 1219
- Adult onset Still's disease, clinical experience, 18 patients over 15 years, northern India, 529
- Adult Still's disease, sulphasalazine induced hepatitis: *correspondence*, 1264
- Agalactosyl IgG (Gal(0)), clinical application in early inflammatory arthritis, 1280 *P*
- Agalactosyl IgG, interleukin 6, and pregnancy, 1278 *P*
- Agalactosylated IgG, modified function, 1277 *P*
- Age at presentation, ankylosing spondylitis, 340: *correspondence*, 1102
- Aglycosylated chimeric human IgG3 can trigger human phagocyte respiratory burst, 1283 *P*
- Alpha-1 antitrypsin, inactive, in rheumatoid synovial fluid: *correspondence*, 1022
- Alpha acid glycoprotein, expression of (sialyl)-Lewis X groups, during acute and chronic inflammation, 1283 *P*
- America, practice guidelines in medicine (cookbook medicine): *dispatch*, 1257
- Amyloidosis, dialysis associated, aberrant cytokine production from tenosynovium, 797
- Anaemia in RA  
effect of blunted response to erythropoietin and interleukin 1 production by marrow macrophages, 753  
investigation, 469  
response to treatment with subcutaneous recombinant human erythropoietin, 747
- Angiogenesis, and RA, pathogenic and therapeutic implications: *review*, 919
- Angiotensin converting enzyme  
constitutive production from rheumatoid nodule cells under serum free conditions, 741  
production by rheumatoid synovial membrane, 476
- Ankylosing spondylitis  
absence of autoantibodies to peptides shared by HLA-B27.5 and *K. pneumoniae* nitrogenase in serum samples from HLA-B25 positive patients, 783  
antibodies to *K. pneumoniae*, 1296  
antibody to 63 kilodalton insect protein, 334  
chronic otitis media as new extra-articular manifestation, 655  
echocardiographic abnormalities, 652  
gait analysis, 898  
and the heart: *leader*, 705  
HLA class I expression measurement, 1138  
IgA antibody response to klebsiella, measured by immunoblotting, 233  
immune complexes, 83  
increased levels of serum IgA and IgA1 monomers, 790  
increasing age at presentation, 340: *correspondence*, 1102  
and monoclonal gammopathies, 951  
myocardial dysfunction, 227  
pathogenesis, relevance of cellular immunity to cartilage proteoglycans, 959  
RFLP and sequencing of HLA-B27 allele, 855  
vertebral squaring, radiological assessment, 330
- Anti-inflammatory drugs, drug derived radicals as mediators of side effects: *viewpoint*, 1261
- Antibodies, to double stranded DNA, purified from SLE serum samples, effect on mesangial cells, 162
- Antibody response in yersinia triggered reactive arthritis: *concise report*, 1247
- Anticardiolipin antibodies  
effects on astrocyte proliferation and binding to brain tissue, 717  
JCA, 1301  
in RA: *correspondence*, 1100  
and renovascular hypertension: *correspondence*, 1180  
risk factor for vascular diseases in SLE, 152  
in Sjogren's syndrome, isotype profile and clinical relevance, 889
- Anticardiolipin antibody titre, and lupus anticoagulant activity, in SLE, fluctuations, 353: *correspondence*, 1021
- Antigen induced monarticular arthritis, effect of intravenous iron-dextran infusion, rabbits, 1237
- Antikeratin antibodies, diagnostic and prognostic markers for early RA, 743: *correspondence*, 1264
- Antinuclear antibodies, positive, in malignancies: *correspondence*, 573
- Antiperinuclear factor, in juvenile rheumatoid arthritis, 350: *correspondence*, 1264
- Antiphospholipid antibodies  
and HLA associations, in primary Sjogren's syndrome, 495  
in homozygous sickle cell disease, 671  
and pregnancy: *correspondence*, 1103
- Antiphospholipid syndrome  
during pregnancy, immunoadsorbent plasmapheresis: *case report*, 399  
in SLE, reassessing status, 160  
syndrome in evolution: *leader*, 147: *correspondence*, 1180
- Antireticulin antibodies, in systemic sclerosis: *correspondence*, 1103
- Antiribosomal P antibodies and lupus psychosis: *correspondence*, 1104
- Aortic insufficiency, acute, in presumed Reiter's syndrome: *case report*, 686
- Aortic valve cusp rupture, early, in relapsing polychondritis, 413
- Arthritic joints, from pigs infected with *E. rhusiopathiae*, detection of cytokine activated chondrocytes, 978
- Arthritis  
chronic, prevalence in four geographical areas, Scottish Highlands, 186  
collagen induced model, glycosylation of IgG, 1280 *P*  
elderly patients, potential for drug interactions: *correspondence*, 926  
induced by intra-articular IgE aggregates, rats, 210  
and mycoplasmas: *review*, 1170  
severe, and bone abnormalities, in pachydermoperiostosis: *case report*, 416  
various forms, plasminogen activators in synovial fluid and plasma, 965
- Arthritis induced by cell wall fragments of *Euco bacterium aerofaciens*, influence of decontamination, rats, 510
- Articular cartilage, patellae, proteoglycan synthesis inhibition by TGF  $\alpha$ , 643
- Articular tissue grafts: *leader*, 292
- Aseptic loosening of total joint replacements, interleukin 1a and a production by pseudosynovial membrane cells, 638
- Astrocyte proliferation and binding to brain tissue of anticardiolipin antibodies purified from lupus serum, inhibition, 717
- Athroplasty, infected, salvage: *masterclass*, 910
- Auranofin and sulphasalazine compared, as second line drugs in RA, 461
- Autoantibodies, in chronic arthritis of childhood, relations with each other and with histocompatibility antigens, 1301
- Autoimmune diseases, affecting the lung, increase in transforming growth factor  $\beta$ , 362
- Autoimmune hepatitis and thyroiditis, and mixed connective tissue disease: *case report*, 544
- Autoimmune rheumatic diseases and hypergammaglobulinaemia: *review*, 1185
- Autoimmunity, and alpha-1,3-galactosyltransferase, 1274 *P*
- Avascular necrosis of the femoral head, brucellosis induced, 7 year old child: *case report*, 404
- B lymphocytes  
characterisation of extracellular sialyltransferase activity, 1284 *P*  
differentiation antigens, sialylated, generation by human Golgi beta-galactoside alpha-2,6-sialyltransferase, 1285 *P*  
structure and possible function of proteoglycans, 1285 *P*
- Bacteria, associated with reactive arthritis, aetiological role, in pauciarticular JCA, 1208
- Bacterial induction of arthritis, rats, 510
- Balneotherapy, in low back pain, controlled trial: *now and then*, 820
- Behcet's syndrome, conjunctival ulceration: *correspondence*, 574
- Belgium: *dispatch*, 281
- Benzathine penicillin, in long term treatment of chronic Lyme arthritis: *case report*, 1007
- Bezafibrate induced rhabdomyolysis: *case report*, 536
- Bone  
abnormalities, and severe arthritis, in pachydermoperiostosis: *case report*, 416  
density, and subsequent bone loss at menopause, risk factor and dietary calcium questionnaire: *concise report*, 1252  
erosion and loss, in RA, intranasal calcitonin in prevention, 761  
mass, in rheumatoid arthritis: *review*, 826  
mass in osteoarthritis: *review*, 823  
mechanical stimulus: *leader*, 4  
mineral density, and osteoarthritis: *leader*, 1025  
resorption, by cells isolated from rheumatoid synovium, 1223
- Britain, 1991: *dispatch*, 702
- Bronchial hyperresponsiveness, to methacholine, in primary Sjogren's syndrome: *correspondence*, 431
- Bronchiolitis obliterans, in SLE: *correspondence*, 927
- Brucellosis induced avascular necrosis of the femoral head, 7 year old child: *case report*, 404
- Bursitis, retrocalcaneal, in juvenile chronic arthritis: *case report*, 1162
- C reactive protein response, increased, and SLE and Jaccoud's arthropathy, 358
- Calcinosis, associated with staphylococcal infections in childhood

- dermatomyositis, 378
- Calcitonin, intranasal, in prevention of bone erosion and loss in RA, 761
- Calcium, dietary, questionnaire, and bone density and bone loss at menopause: *concise report*, 1252
- Cancer, increased risk, and SLE, 437
- Carbohydrate
- cell surface, in immune response, 1273 *P*
  - complex, fluorophore assisted carbohydrate electrophoresis, 1270 *P*
  - protein interactions, biochemical analyses, 1270 *P*
- Cardiac disease, in SLE, 156
- Cardiac tamponade, as initial manifestation of SLE in early childhood: *case report*, 279
- Carrageenan induced inflammation of the air pouch in mice, effect of sodium aurothiomalate, 112
- Cartilage
- HLA class II antigen induction: *correspondence*, 1098
  - loss, osteoarthritis of the knee, prognostic factors, 12 year follow-up, 932
  - proteoglycans, cellular immunity to, relevance to pathogenesis of ankylosing spondylitis, 959
- CD antigens, and alpha-2,6-sialyltransferase, 1273 *P*
- Cell surface carbohydrates, in immune response, 1273 *P*
- Cerebral occlusive vasculopathy, in SLE, and speculation on part played by complement: *case report*, 550
- Cervical spine, in patients with psoriatic arthritis, 73
- Chemiluminescence, neutrophil, induced by different stimuli in RA, effect of fish oil, 877
- Chondral abrasion, canine model, preliminary observations, 1057
- Chondrocytes, cytokine activated, detection in arthritic joints from pigs infected with *E. rhusiopathiae*, 978
- Chromosome 11 locus implicated in susceptibility to HLA-DR4 dependent type I diabetes mellitus also affects RA susceptibility: *concise report*, 1250
- Chromosome studies in systemic sclerosis, with consideration of antibodies to topoisomerase I, 624
- Clavicle, condensing osteitis, MRI as adjunct method for differential diagnosis: *case report*, 539
- Coagulation temperature, effect on complement function measurements, SLE, 892
- Cod liver oil, efficacy as adjunct to NSAIDs in osteoarthritis: *now and then*, 128
- Colchicine, acute neuromyopathy after: *correspondence*, 1267
- Colchicine myoneuropathy and renal dysfunction: *correspondence*, 1343
- Cold challenge responses in primary Raynaud's phenomenon and that associated with systemic sclerosis, 1183
- Cold pressor testing, failure to induce changes in plasma renin activity or renal duplex sonography in systemic sclerosis: *correspondence*, 1022
- Complement, in cerebral occlusive vasculopathy in SLE: *case report*, 550
- Complement and contact activation to inflammatory reactions in arthritic joints, 1123
- Complement factor 2 deficiency, clinical and serological family study, 1254
- Complement function measurements, effects of coagulation temperature, SLE, 892
- Computer program using Bayes's theorem, rheumatic disorder diagnosis, development and validation, 266
- Conferences, international, how to speak: *now and then*, 1259
- Conjunctival ulceration, in Behcet's syndrome: *correspondence*, 574
- Connective tissue disease
- crisis, intravenous pulses of cyclophosphamide, short term effects, 885
  - IgG and IgM anti-snRNP reactivity, 1307
  - labial salivary gland biopsy complications: *concise report*, 996
- Contact and complement activation to inflammatory reactions in arthritic joints, 1123
- Copeman W S C, his importance in contemporary medicine: *now and then*, 283
- Correction, 928
- Corticosteroid injections in RA, predictive value of synovial fluid analysis, 874
- CR1 expression, and leucocyte integrin, on peripheral blood leucocytes, in rheumatoid arthritis, 307
- Creatinine, and uric acid excretion, relation between, 191
- Crohn's disease, antibodies to *K. pneumoniae*, 1296
- Cryptogenic chronic active hepatitis, and granulomatous lipophagic panniculitis and temporal arteritis: *case report*, 812
- Curacao, SLE, epidemiology, 1197
- Cyclophosphamide, intravenous pulses, in connective tissue disease crisis, short term effects, 885
- Cytokine(s)
- activated chondrocytes, detection in arthritic joints from pigs infected with *E. rhusiopathiae*, 978
  - circulating levels in RA, double blind trial with sulphasalazine, 946
  - determination in synovial fluids, 731
  - production, aberrant, from tenosynovium, in dialysis associated amyloidosis, 797
- Cytomegalovirus antigens, in phagocytosed serum complexes, in RA, vasculitis, peripheral neuropathy, cutaneous ulceration, and digital gangrene: *case report*, 553
- Cytoskeleton, importance as mediator of inflammation: *review*, 565
- D-penicillamine, inhibiting neutrophil oxidant secretion, scavenging of H<sub>2</sub>O<sub>2</sub> and HOCl, 321
- 10-Deazaaminopterin, versus methotrexate, in RA, controlled trial, 600
- Dermatomyositis, childhood, staphylococcal infections, association with development of calcinosis, raised IgE concentrations and granulocyte chemotactic defect, 378
- Diabetes mellitus, HLA-DR4 dependent type I, effect of chromosome 11 locus on susceptibility to RA: *concise report*, 1250
